TECS and NCIC test. Going through my emails, setting up unclass VA. I have a few DVD's I'm reviewing for [REDACTED] today and [REDACTED] and [REDACTED] both have 305 stuff they are sending me (I'll also be able to tackle that via teleworking). I'll also be sending myself some facebook returns to review at home and prior Epstein travel info (another project I can work from home). I basically brought back the evidence I had been working on the last few weeks (I typed it out so I have it on one drive now) and will be swapping it out.

Very good.

Other than your TECS test, what are you working on?
