Hi, [REDACTED]

Thanks for the call. I am connecting you with the folks at OAG and OASG who are spearheading this effort. They will have some follow-up tasks and questions for you and your team on the redactions to the audio recordings. I believe they will also have some follow-up questions on the two shorter files we have discussed, for which I know [REDACTED] is working on providing a fuller explanation.

One question in the meantime is whether FBI has access to Epstein's medical records that Maxwell discussed in the interview. If you could confirm that either way, that would be great.

Let me know if you need anything on my end.

Thank you again, [REDACTED] for you and your team's work on this.
