No worries. I emailed her just a minute ago and explained your leave situation and plans. I'll email you when I hear from her. Sorry to bother you with this while you're on leave.

[REDACTED], hey sorry just got your message! I have been out sick for the last two days! I am feeling better! But due to father's day I had taken leave to be off thru Monday, returning to work on Tues! I do have scheduled plans but if [REDACTED] really feels she needs me i will try and make it. Will you let her know and get back with me?

Hey [REDACTED]

I know you're out sick today. Sorry to bother you.

Alfredo Rodriguez's sentencing with [REDACTED] and Judge Marra is at 10:00 am tomorrow. I spoke with [REDACTED] this afternoon and he (Rodriguez) scores out to 24-30 months. [REDACTED] wants to be able to counter any defense argument that he should not receive more time than Epstein.

She's asked if either you or [REDACTED] could be at the hearing to testify as to how valuable the address book would have been if you'd had it with the original case or how it would have impacted your investigation.

I told her [REDACTED] was out of town until Monday and that I'd try to reach out to you. [REDACTED] said you were on sick leave. Not sure if you'll be in tomorrow, but wanted to pass this along.

Hope you feel better,
[REDACTED]
