[REDACTED],

FYI, here is the list of victims we are using in the current Indictment. We have detailed the sexual activity Epstein engaged in with each of them, based on their statements to law enforcement. Note: We did not include for each minor female the act of Epstein fondling or touching their breasts. We may amend that act at a later time. Let us know your thoughts. We also plan on putting together a similar summary for the other 11 minors.(three less due to no statements from the actual minors) Talk to you later today.
