Hi all,

I am completely open any time after 2 tomorrow, or I can make a time in the morning work.

Please let me know what you all are thinking.

Thank you,

Things we learned today, thank you for clarifying:

1. On one of the harddrives you've populated for us, this is the breakdown.

<image001.png>

2. The disk called "1b1 copy thumbdrive from K&L Gates 9/29/2020" is the same as 1B1 on the harddrive, but exported from the FTK imager. The disk version is better to give to defense.

Things that we need to tackle on Thursday, by repopulating the SDNY drive:

1. the CD called "working copy of emails" that initially had on it a sticky labelled "1b8" is not 1b8. It might be 1b2. This is the contents of that cd:

<image002.png>

2. 1B8 on the harddrive is in the access data file type and needs to be read by the FTK imager. Ideally we could dump that out of the program into a type that can be more easily read by defense counsel.

This is the current disk contents:

<image003.png>

3. the file called 1B9 contains the full Callie phone. This should NOT be produced as it is. The folder 1B9 was populated with that phone by mistake. [This also might be 1b2.] The true contents of 1B9 has to be re-pulled across from the original- from the folder called "Report" from 2/5/21, last updated at 10:01

questions in blue:

1b5	Just pertinent, john bicks
1b6	Screenshots, not a phone extraction
1b7	Just pertinent, calvina bostick
1b8	Is this just pertinent?
1b9	[needs help]
1b10	just pertinent, Bicks, callie, whitney,
1b12	Is this just pertinent?, Askew phone

this is the music I referred to throughout this afternoon:

Would 430 work for you?

Sarah, everyone is out tomorrow, so that unfortunately wouldn't work.
