Hi Jason -- I think that I left my thumb drive in the back of Nesbitt's computer. Can you check? If so, could you send it over with any agent headed this way?

Thank you.

[REDACTED]

There were three locations that appear to be missing the CPUs. The purple hanging files were located in the file cabinet next to the location which is believed to be [REDACTED] workspace (black and white checkered floor). In addition, there was an orange hanging file folder in the same location labeled "massages". If we locate a photograph of the orange folder we will forward it to you.

The name of the Assistant State Attorney that handled the case prior to [REDACTED] was [REDACTED].

Recarey had the state search warrant signed on 10/18/2005 and it was executed on 10/20/2005. He believes the document was prepared and taken to the State Attorney's Office for review on 10/17/2005.

We have a taped voicemail left by [REDACTED] on [REDACTED] cell phone dated 10/04/2005 regarding Palm Beach Police Department's investigation, indicating Epstein and [REDACTED] had knowledge of the investigation.
