The truck will be arriving in 10 minutes. We are still waiting on a decision from HQ on whether we are taking the evidence in at WFO or if it is going to DOJ. No assistance needed yet at WFO. I will keep this distro updated when I know more.

All,

We will lock down the freight elevator for the time of the delivery for easier flow. Also any delivery scheduled for tomorrow morning has been canceled, the dock should be wide open.

NY/WF,

Arrival:

The box truck from NY will arrive at WFO tomorrow (2/28) at 7am. [REDACTED], WFO Evidence Control Room will have 4-5 Evidence Techs available in the morning to assist with transport to the storage room. [REDACTED] are working with facilities/ETs to limit

access to the storage room(s). WFO [REDACTED] will be available in the morning to take custody of the evidence.

NY: Park in front of WFO (601 4<sup>th</sup> Street NW, Washington, DC, 20535). I will be your POC, [REDACTED] [REDACTED] (cc'd) will be your alternate POC. FBI Police are tracking your arrival with a box truck.

Next Week:

Per NY coordination with CID, FBI/DOJ EM have requested to review the evidence next week. To support this effort NY will send 2x VCAC SAs to WFO next week and WFO will have 2x VCAC SAs available each day. Additionally, [REDACTED] will be available to access the evidence as needed.

Access:

[REDACTED] Please request access for SA Christian Barringer for the storage room(s). She will maintain custody while the evidence is at WFO.

NY: Reply all with the names of your 2x SAs that will be here next week and we will work on access to WFO.

OPWAN: Some evidence may require review on OPWAN. NY will coordinate with OTD to get access for the NY SAs for review.

Standalone Computers: WFO VCAC has standalone computers at WFO for review of evidence if needed.

Please keep everyone informed on this distro as relevant information is obtained. Appreciate everyone's flexibility as we support this request.

Stay safe,
