Hi [REDACTED],

Yes, it's from the same complainant.

To: Honorable Richard Berman  
Honorable Paul Engelmayer

Good morning,

I wrote to you previously regarding Epstein.

I really need help outside of Florida because these Agents that have been terrorizing me and are corrupt and I believe they are Psychopaths. I am living in a nightmare and they have threatened my life.

I'm a target of the very people who raped me. In 2021 I ended up in jail and didn't know why I was there. A Sheriff Grady Judd entrapment along with the FBI. Sheriff Grady Judd was at the church raping me as a child and the CIA and FBI knew and did nothing to help me or my younger sister. The FBI knew I was raped by Epstein when I was between the age of about 10 and 12 years old and they knew I was gang raped by Steven Bannon and nine other men while strapped down on a table at Epsteins. These men targeted me because they made reference of me being strapped down and raped as a child. This was my punishment for telling that I saw James Bulger and Kevin Weeks kidnap a child.

This whitchunt started when I was five years old. I couldn't remember but I remember now that I told my teacher I was being molested and I told her I witnessed my parents doing a kidnapping. (They weren't my parents.). My teacher, Janice Farnham of Prattville School tried to get me help but help never came. James Bulger's connections were obviously powerful.

In 2021, I was told by Robert A. Murray that when I remember everything, they will kill me. I had no idea what he was talking about because I couldn't remember. This appears to be true. He also said when I remember I shouldn't report anything to the authorities because they will just say I'm a "Psychopath". Well I am not going to be silenced and I will tell the truth.

I am a target of Donald Trump. In 2014 a CIA Agent tricked me into going to Epsteins in Palm Beach. He said I was going to a holiday party. I got there with him was handed a drink and I was drugged once again. He took me to a room and said wait here I'll be right back and immediately the door was shut and locked by Ghislaine Maxwell and Jeff Epstein. Every time I tried to get out they would back me into the room and it was Ghislaine Maxwell who was really doing this. I was locked in a room to be a sex slave. At one point, the Butler unlocked the door and standing there was Donald Trump. ( I wasn't his cup of tea). He said to a man make sure she drinks some of that so she forgets I was here. Then said to the butler "only open the door that you think I will like".

In 1998, Robert A. Murray was working with the FBI and told me I was a victim. I didn't understand and he told me I don't remember. He was working with the same short FBI Agent that took me from my bed several times and drugged me. In 1998, I was asked if I saw James Bulger kidnap a child when I was about 14 and I said yes I did. Well days later I was setup and put on a government list by a woman at Massachusetts General Hospital that was a psychiatrist. She mentioned the name Ricoh who she said she was going to call because she had a connection after I told her you can't put me on a list without a court hearing. This woman was working with my younger sister. I was called by the woman who pretended to be my mother and she told me I had a meeting to discuss my sister's treatment plan. I walked into a witch hunt of false allegations. These allegations were made by two women who are winter Hill gang members. At the end of the meeting, the psychiatrist said "you

shouldn't be talking about the kidnapping you witnessed to endanger your family". Then two men came in and injected me with drugs and they put a wire in my wrist. I couldn't remember they did this to me until recently. They've been listening to my entire life.

The two women who made false allegations about me, set me up and I almost died. They asked me if I witnessed a kidnapping and I said I did. Days later James Bulger and Kevin Weeks abducted me and another woman and I was overdosed with drugs for having a big mouth. I woke up in a different month. The man who pretended to be my father was also involved as he did work for James Bulger which I didn't know or could remember any of the horrors of my life.

A witchhunt that continues today which includes the FBI trying to prove I'm a lesbian and entrapments that are just wrong. I drove to a sushi restaurant and the FBI agent said I drove by a school on purpose which is just a lie. This just goes on and on.

In 1998, Robert A. Murray, my boss at Bank of Boston said there were psychopaths in the CIA and FBI playing a game. He said Donald Trump was involved and was in this Pedophile ring. He mentioned Justice Clarence Thomas who I didn't know. He also told me I was sold to the CIA by the man who pretended to be my father, the man that raped me repeatedly and sex trafficked me. I didn't believe it but I do now.

These Agents here in Florida that took me from my bed I believe are Psychopaths. I remember the short agent asking me if I had a "bad luck" night shirt. I didn't understand what he was talking about nor could I remember because I was drugged and sitting there in a night shirt half naked. Now I understand and this is truly going to be hard for anyone to believe but every time they take me from my bed I am wearing a particular night shirt.

In 2014, I was abducted by Kevin Weeks and another man. A woman I knew set me up and said she knew these men. I couldn't remember Kevin Weeks because I was drugged on a substance that erases your memory. I was raped and tortured. I was drugged and smashed in the head with a hammer. As the men smashed me in the head, the man who tortured me said "Be careful she's our computer". The man that was electrocuting me as he was saying "you're not going to talk about the kidnapping you witnessed right Christine"? Then he would electrocute me. John Martorano was the man who raped me and took a picture of me naked and said "let's take a picture for Clarence Thomas". (Justice Clarence Thomas raped me at a church in Massachusetts when I was about four or five years old. This is also in my CIA file because a few people have asked me if I remembered but I couldn't remember much of my childhood because I was drugged so much.

After I was tortured, I remember standing on a sidewalk and I couldn't remember what I just endured. The woman I was with called the cops. The cops came and instead of taking me to the hospital, I was sent to the FBI office because they said I was a psychopath. I had blood dripping from my head from being smashed in the head with a hammer and I couldn't remember I was just tortured. I ended up in a meeting with this same short psychopath Agent and his wife.

I tried getting help from my sheriff here but he is manipulated by the FBI agent. I was accused of being on drugs and I am not a drug addict. My drug test came back clean. I was Baker Acted Unjustly and it was a setup just as Robert A. Murray had described to me previously.

The short FBI agent has shot a GPS tag in my butt and leg, they put a pin in my knee, they put a wire in my neck, they put pins in my head, they put a pin in my back and I'm not doing well. The Woman Agent who is married to the short Agent said she would tell the doctors I did this to myself and nobody would believe me.

I went to the emergency room and I can't get any doctors to believe me because the FBI agents usually call and say I'm a psychopath.

About two years ago, I woke up on a table and these agents had me in a facility where they do medical procedures. They put a pacemaker device in my heart and they went through my femoral artery. They said they put something in my coronoid artery as well. They threatened my life if I talk about certain things I witnessed these agents doing that relates to a kidnapping Pedophile ring I was victim to as a child. These Agents are guilty of participating in the beating death of missing children in Massachusetts and it's a sick and twisted plot that they are the very Agents targeting me the victim.

Several years ago FBI Agent, Andrew McCabe put a fisa warrant on me Unjustly. I witnessed him pay a woman to have sex with her underage daughter. I don't know how I got to this place but I remember a man telling me to get up and stop him. I got up and I looked at the mother and Andrew but I wasn't brave enough and I couldn't remember All these years. This was just another time I was taken from my bed at gunpoint.

I am a victim of being raped several times and set-up by winter Hill gang members. Winter Hill gang members that are in the FBI and CIA.

People have also faked their death to be in the CIA at the expense of terrorizing me. One man, Keith Shipley invited me to lunch in 2011 . I got in the vehicle and was handed a drink of water by a man in the front seat and it was laced again. These men were as also winter Hill gang members. I woke up tied to a chair and a man had a propane tank and was waving flames at me. He said I could live if Keith drank cyanide. It was all fake and Keith is alive.

Another person that is alive and in the CIA is Virginia Guifre. I remember the same FBI agent telling me that they had to put her in the CIA because they would kill her. All this did was silence Virginia and the people that wanted her dead should be held accountable but instead the victims are silenced

In 2008, my boss said to me "the FBI is on the phone; did you see James Bulger kidnap a child?". I said "I did". That night I was raped by Ron Desantis. I woke up naked on my floor tied up and beaten while James Bulger stood there with a gun. Then Ron Desantis Came in and raped me. He said by the time I remember him raping me, I'll be locked up as a psychopath! Then a woman came in and faked sex with me and that woman is Nancy Mace. James Bulger said he was going to put it on you porn. I couldn't remember this. This was my punishment for telling

I am not a psychopath nor am I a predator. I am a victim of many rapists, these FBI agents. I got sold to be raped and never asked for this life.

These Agents are into some sort of witchcraft and in 1998 I was told people in the FBI and CIA were playing a game with my life. I didn't believe it but it's true.

I couldn't remember any of this but these CIA drugs are cruel. This short FBI Agent took off his belt and told me to kneel down and whip myself for watching an Amazon Prime video that had gay men in it having a sexual encounter. The drug made me into a robot and I did it while he and others laughed.

Another time I was drugged they had me stand in one spot with my arm in the air for hours and I was just a zombie. I threw up after.

I have the very psychopaths in the FBI investigating me when I am their victim and it's so twisted.

I'm attaching my chest x-ray with the device in my chest. I've never seen a cardiologist in my life. I have Medicare and you can check. I'm also including a picture of my legs from the agents torturing me.

When I got my X-ray I sent it to a pacemaker Dr and they weren't sure what it is. The FBI agents said they would call the Dr and tell them that I had a boob piercing and that's what the X-ray is. These agents told me nobody will believe me and I hope it's not true.

Also I would like to know who the men were that raped me at Epsteins in New York. I was strapped down and couldn't move. These men said I was strapped down just like I was as a child when I was raped. This is so Unjust and traumatizing.

I would like to know why these men are being covered up and why they weren't prosecuted.

I was also gang raped when I was 14 or 15 years old. My punishment for telling the police I saw James Bulger and Kevin Weeks kidnapping a child. I reported that as soon as I started to remember. Michael Franzese and Sam Gravano along with other winter Hill gang members are involved and there was another little girl in there with me. There was a live audience. I woke up tied to a chair, a knife to my stomach and then gang raped. I promised that little girl I would tell her family what happened to her. Somehow I think the short FBI Agent has twisted the facts on this incident to cover for his fellow gang members.

I thought I was just a normal person until I started to remember everything these monsters have done to me and it's facilitated by the CIA and FBI in this Pedophile ring. I've been targeted so they can destroy my reputation and credibility.

I'm not going to be silent. I was silenced for years because I couldn't remember but now that I remember I would like Justice and people should know who these monsters are.

There's more that I am remembering and it starts out the same way which is abducted from my bed at gunpoint and drugged on CIA substances. it's cruel how these nutjobs in the CIA and FBI have terrorized and taken over my life!

This is not justice and because I couldn't remember I would like to be able to hold my Rapists and these Agents accountable before they do kill me. I know who I am and I'm a good person that didn't deserve any of this. I've become a target of high powered government officials that are my very Rapists. The theme of my life and punishment is for telling people and authorities I witnessed James Bulger and Kevin Weeks kidnap a child when I was younger.

Thank you for reading this. I do believe the nutjob FBI Agent will try to get this email deleted or tell you that I'm a psychopath and for once please give me a voice as I fight for my life.

Sincerely,

Christine Constantino (Maya)
