Following up on our conversation, I understand DOJ has agreed that DCAP is an acceptable interim solution. Leaning forward to the "hard drive" request, we will make sure that CID receives the hard drive copy of 1B136 and 1B146 that has already been generated. We will also plan on making hard drive copies of the other data when its fully restored an available.

Thank you!

Subject: Deliverable of electronic archives to Director's office - 50D case

Good morning!

Reaching out to see if DOJ/the Director's office has determined DCAP acceptable interim solution to review the unredacted 50D evidence items. I have generated a forensic copy of 1B136 and 1B146 on a hard drive for this tasking as it is the only items of the four 1Bs I am capable of producing on hard drive in this short timeframe.

Please let me know if I should deliver this hard drive to CID or if DCAP is acceptable.

Thank you!
