Sorry – I had to re-upload them to MXU today because something went wrong over the holiday with the upload. I will check with them tomorrow to see how long it will take to transcode them and let you know.

On Friday, I went ahead and started to download all cameras for entire day of July 5th. I do not see cameras specifically labeled "visitor" or channel #s, so I am just downloading them all for you to review after they are transcoded by MXU. I am hoping to have them uploaded today for MXU to start their magic.

I think 2pm x 10 pm should be sufficient. Here are the names of the cameras we'd like:
Front lobby; lobby waiting area; and lobby main entrance.
Did you have any cameras labeled "visitors center" or "visitors room"?

I do not have the channel numbers, just the DVR camera names. So if you can review this list and marry up the Channel number with the Camera name, I will be happy to pull the videos. Are you looking for the entire video from each of those days or just certain times?

Good Afternoon All,

I was looking to review the following MCC cameras for July 5, 2019:

- CH 54;
- CH 55;
- CH 67;
- CH 68.

I looked through the DVRs on CJ Desktop but did not see a channel/camera labeled "visitor's room." Would there be any other locations I should review to locate this camera or are all the channels/cameras we have available limited to what I see on the review site?

[REDACTED] f there are any additional cameras you think we will need let me know.

Thanks [REDACTED]
