I attached Epstein 292 forms from 7/7-2019 to 8/10/2019. During this periods, Epstein was moved in and out from SHU 3 times.

I looked into his SHU history records and filled SHU administration data into 292 history reports.

Thanks,

As you are probably aware inmate Epstein was found dead in his SHU cell in NYM this past Saturday morning. We need to reconstruct as best we can inmate Epstein's 292 record for the week prior to his death (Monday, August 5, 2019 through Friday, August 9, 2019). Please make this your number one priority and e-mail me the results when you are done. This is a time critical task.

Thanks.

Good morning,

This is my second request for information concerning Jeffrey Epstein. The subject was a registered sexual offender in Florida and is currently on our public website as Federal Incarceration. In order for FDLE to change his status to deceased, we need some kind of documentation from your facility confirming his death.

Thank you,

Epstein didn't kill himself, and Ag Barr is lying.... Well I guess more misleading is appropriate way of saying it (Lying through obfuscation). No one was "on camera" that could have went to Epstein's cell. Barr "has watched the videos." What he left out is that if you know the camera's timing and locations you could easily get to Epstein's cell easily. In fact 2-3 men (F.orB.illionaires!.nterests agents) could pass through the camera holes on their way to kill Epstein. So in order to debunk this "conspiracy theory" please release the camera type and capabilities of each camera, service records, repairs and upgrades. Can probably find this by going through your public budget/spending info, but thought this might be a quicker way. Now I understand you wouldn't want to give out location of cameras and I fully understand the need for that. Cameras pan, tilt, zoom in and could very easily create "holes" for people to go undetected. Yep there'd have to be many of you corrupt to pull this off and well that just adds to the credibility of my claims. Most of you are corrupt. Why was every "news' outlet reporting for WEEKS that two cameras were out and there was no correction to the story from anyone? Then Ag Barr claims to have watched all videos and says no one enter that area. Except you could get there without being on camera. So, technically he didn't lie, but he is trying to cover it up with completely misleading statements. Oh, and there was one camera out, the one pointed at his cell. Did he watch only a few hours, or a day or two prior? Criminals will wait and do crazy things in order to achieve their goals. I can only imagine the lengths the sick wealthy pedos in power and corrupt underlings would do to keep themselves safe. Just look at the ongoing coup by traitors. They'd do much worse than any criminal I am sure. Wait 1-?? days hidden to kill someone ABSOLUTELY!

Dear Mr. Epstein,

**You called me circa August 2017 and you and I had a Skype call** with my Ph.D. student, [REDACTED], in December 2017.

**▲ SCIENTIST OF THE YEAR:** Dr. S. Allen Counter, (l) director of the Harvard Foundation of Harvard University, and Dr. Benedict H. Gross (r), dean of Harvard College and Leverett Professor of Mathematics, present the Harvard Foundation "2004 Scientist of the Year Award" to noted mathematician Professor Dr. Jonathan David Farley. Farley is currently a visiting professor of applied mathematics at the Massachusetts Institute of Technology. He graduated summa cum laude from Harvard College with straight A's in mathematics and later earned a Ph.D. in mathematics from Oxford University. "Jonathan Farley is one of the world's most impressive young mathematicians," said Dr. Counter. "He is a model of excellence for young people of all backgrounds, but especially African Americans who may see their intellectual potential in him. Harvard is proud to

honor his achievements and acknowledge his fine example.”

## I can help you.

I am now throwing you a lifesaver. You can donate to my university, the historically black college, Morgan State University. **Our accepting your \$5 million will show the world you are not a pariah and may help you avoid a conviction like Bill Cosby.** The donation can be for “The Jeffrey Epstein Chair for the Promotion of Women in Mathematics,” which will show the world your support for women.

Alternatively, Mark Zuckerberg gave \$3 million “Breakthrough Awards” to two math professors. You can give *me* a similar award. Lord Robert May of Oxford, former President of the Royal Society, wrote to me in 2007, “I thought your analysis of the bee epidemic was nice, and could well be useful.” In 2018, I solved a problem of Pólya Prize-winner Anders Björner which he posed in 1981 (he implied it was a “challenging question” in 1976) about matchings in infinite geometric lattices.

I am willing to publically stand with you, and your gift could generate support for you in the black community: public support is something you sorely need right now.

If you want to donate to a more prestigious university, the danger is that they will reject your gift, but Lincoln College, part of my *alma mater* Oxford University, needs £1.5 million for a lectureship in Pure Mathematics. They’ve raised less than £10,000!

<https://www.givecampus.com/schools/LincolnCollege/mathematics-fellowship>

I spoke with the head of the college and the head of development. The latter said that accepting money from you would be “a tough one for a UK institution,” but if you funded *me* as an individual and pointed out to them that I could then take up the lectureship for free, they might be open to that. The benefit to you is that I would then be an Oxford University lecturer and you’d have an advocate at one of the world’s most prestigious universities publically defending you. I could probably generate positive media coverage on your behalf as an Oxford don.

Cordially,

Dear Mr. Epstein,

**You called me circa August 2017 and you and I had a Skype call** with my Ph.D. student, [REDACTED], in December 2017.

**I can help you.**

I am now throwing you a lifesaver. You can donate to my university, the historically black college, Morgan State University. **Our accepting your \$5 million will show the world you are not a pariah and may help you avoid a conviction like Bill Cosby.** The donation can

be for “The Jeffrey Epstein Chair for the Promotion of Women in Mathematics,” which will show the world your support for women.

Alternatively, Mark Zuckerberg gave \$3 million “Breakthrough Awards” to two math professors. You can give *me* a similar award. Lord Robert May of Oxford, former President of the Royal Society, wrote to me in 2007, “I thought your analysis of the bee epidemic was nice, and could well be useful.” In 2018, I solved a problem of Pólya Prize-winner Anders Björner which he posed in 1981 (he implied it was a “challenging question” in 1976) about matchings in infinite geometric lattices.

I am willing to publically stand with you, and your gift could generate support for you in the black community: public support is something you sorely need right now.

If you want to donate to a more prestigious university, the danger is that they will reject your gift, but Lincoln College, part of my *alma mater* Oxford University, needs £1.5 million for a lectureship in Pure Mathematics. They’ve raised less than £10,000!

<https://www.givecampus.com/schools/LincolnCollege/mathematics-fellowship>

I spoke with the head of the college and the head of development. The latter said that accepting money from you would be “a tough one for a UK institution,” but if you funded *me* as an individual and pointed out to them that I could then take up the lectureship for free, they might be open to that. The benefit to you is that I would then be an Oxford University lecturer and you’d have an advocate at one of the world’s most prestigious universities publically defending you. I could probably generate positive media coverage on your behalf as an Oxford don.

▲ **SCIENTIST OF THE YEAR:** Dr. S. Allen Counter, (l) director of the Harvard Foundation of Harvard University, and Dr. Benedict H. Gross (r), dean of Harvard College and Leverett Professor of Mathematics, present the Harvard Foundation “2004 Scientist of the Year Award” to noted mathematician Professor Dr. Jonathan David Farley. Farley is currently a visiting professor of applied mathematics at the Massachusetts Institute of Technology. He graduated *summa cum laude* from Harvard College with straight A’s in mathematics and later earned a Ph.D. in mathematics from Oxford University. “Jonathan Farley is one of the world’s most impressive young mathematicians,” said Dr. Counter. “He is a model of excellence for young people of all backgrounds, but especially African Americans who may see their intellectual potential in him. Harvard is proud to honor his achievements and acknowledge his fine example.”

**SUMMARY REVIEW:**

Inmate Jeffery Edward Epstein #73618-054 a 66 year old male with a history of Obstructive Sleep Apnea on CPAP at night, a history of Hypertriglyceridemia treated with Vascepa, no past Mental Health History prior to incarceration and L4-L5 Stenosis. On July 23, 2019, at 2:00 a.m. he was placed on Suicide Watch for 31 hours and 5 minutes due to abrasion located on the lower anterior surface of his neck area. On July 24, 2019 he was taken off Suicide Watch and was placed on Psychological Observation. On July 30, 2019, he was removed from Psychological Observation and was placed in the Special Housing Unit where he was housed with a cell mate. On August 8, 2019, he was seen by Psychology Services and denied suicidal ideation, intention or plan.

On August 10, 2019, at 6:33 a.m. Special Housing Unit Staff found inmate Epstein unresponsive in his cell and attempted to wake him. The body alarm was activated in SHU and the Control Center announced a medical emergency. CPR was initiated by Special Housing Unit Staff. At 6:35 a.m. medical staff responded and continued CPR and the AED was applied. The Control Center called for an ambulance. The EMS arrived at 6:45 a.m. and the paramedics continued CPR. Inmate Epstein remained unresponsive. Inmate Epstein was intubated, and the ACLS Protocol was initiated by the EMS. No pulse found, no shock was advised and the inmate was prepared for transport to local hospital while continuing CPR. At 7:10 a.m. the EMS departed institution en route to New York Presbyterian Lower Manhattan Hospital. At 7:36 a.m. the inmate was pronounced dead by the ER Physician

I just got off the phone with Central Office and they are recommending we conduct a suicide risk assessment with this inmate when he returns from court. Should he return from court and psychology is gone for the day, he is to go on PSYCHOLOGICAL OBSERVATION unless, of course, he reports he is suicidal. In that case, he is to go on Suicide Watch. Inmate Epstein will likely be receiving bad news in court today and has multiple risk factors for suicidality as identified by BOP statistics. Let's be proactive.

"This writer consulted with Dr. [REDACTED], Central Office, regarding inmate Epstein. Inmate Epstein has various risk factors for suicidality including a high profile case with media attention, sex offense charges, pre-trial status, and a court proceeding today which could potentially be giving him bad news regarding his legal situation. As such, when inmate Epstein returns from court, R&D staff as well as Lieutenant's have been informed to immediately notify the psychology department. If he returns after duty hours, the aforementioned staff were instructed to notify the on-call psychologist and to place inmate Epstein on a watch status until psychology can conduct a thorough suicide risk assessment."

Thank you, Dr. Miller
