To Whom it may concern,

I am contacting you in relation to the first two recent contacts regarding being a targeted victim of Epstein and Maxwell and a connected Criminal Network involved and connected to Epstein and Maxwell and is still operational in Australia and endangering my life. I have attached a copy of the last contact made on the 2nd November 2022 for you review and connection to my previous contacts

2nd November 2022

To whom it may concern,

I am contacting you concerning recent contact dated 3rd October 2022 and reporting that I am a direct target of Epstein and Maxwell that had remained undiscovered, and I reside in South Australia , Australia.

In the previous correspondence I supplied 2 USB flashdrives containing Constructed Legal Case Files containing constructed documented evidence of being a target of a Criminal Network involving multiple connected individuals and prominent powerful people, which also included Government sources and Police sources.

I have now obtained documented evidence of the involvement of the Dark web/ Black market involvement in the targeting of an individual / myself by the Criminal Network involved.

I have submitted this evidence to Esafety in Australia and have requested an investigation into the report and requested their assistance.

Contact person of Esafety : Julie Inman Grant

I am contacting you to submit this final piece of evidence that was missing from the already submitted evidence, which is now conclusive to the final answer of how the Criminal network that has targeted me for over a 30 year period is operating.

I am submitting 1 USB Flashdrive with this report labelled Dark Web-Black Market and contains the files :

1. Identity Theft
2. Social media
3. Intellectual property Theft
4. Sexual Abuse Ring
5. Conspired Murder

EFTA01698968

6. Blocked assistance
7. Seeking assistance

The files listed above are the files I recently submitted to Esafety, Julie Inman Grant on 1st November 2022.

I am contacting you to provide more documented evidence I have discovered in my possession concerning an email dated 21st May 2009 of correspondence between myself and ADAM GURGLY Fake Identity of Epstein and Maxwell and name used by Epstein and Maxwell during the period of 2006-2013 Directly targeting the targeted victim, and contains details of the predatory behaviour by Epstein and Maxwell and what the interaction involved, and that they used the Fake Identity ADAM Gurgly as reported in previous contact and documented evidence involving the M.S.I.C design of the logo, and the documented evidence of the Australian Government sources involved and connected to Epstein and their involvement in the Sexual Abuse Ring.

I have also discovered the source of the commencement of the targeting which commenced at age 14 years of age while residing in Kadina and the motive behind the commencement, which involves an Australian Government source as the source, Attorney General of SA Vickie Chapman, and involves a connected Criminal Network involved in the continual 30 year targeting of an individual and involving multiple illegal criminal and immoral acts of criminality and against human rights and humanity.

I have attached and provided a USB containing 11 files and a report. The 11th file contains documented evidence of the motive and source of the targeting and the reason it began and continued for over a 30 year period involving Attorney General of SA Vickie Chapman. The provided evidence in this file is the final explanation of how and why the targeting began and the motive as to why I in particular had become this target.

I am requesting this final part of the evidence be conclusive to the previous contacts and extensive documented files Character Reference, Stage 1, Stage 2, Stage 3, Stage 4 and the Esafety file submitted previously and am requesting your URGENT attention and assistance in this matter, as my life is so impacted by this criminal targeting I am still residing in my parents home in isolation from employment, business development and any form of social contact due to the persistence of the criminal targeting, which followed me from location to location in 2018 and is still currently active and not resolved, the report of Black Market involvement involving my Identity being stolen confirmed in 2022 and confirms the targeting is still endangering my life and active.

I would appreciate your time, consideration and urgent attention and assistance regarding this matter.

Yours Sincerely

The targeted victim during this period was a victim of email hacking and computer hacking through email services and internet services involving Fraudulent and Malicious activity, blocked contact and altered security systems of the newly purchased computer system, which had been confirmed by a Computer Specialist company as email hack, and had also reported the Fraudulent and Malicious activity to the server GGDaddy, who was conducting an investigation into the reported Activity. The illegal activity of Fraudulent and Malicious activity on computer systems had been occurring for over 10 years and had affected both computer systems, a laptop computer and the newly purchased desk top computer, purchased in 2020, and was a victim of 96 hack attempts in 3 days of turning on the computer, which had been professionally setup by which involved new accounts containing new business setup details, Multiple Security Systems containing 2 step verification systems and Password Protection Security Systems. The newly purchased computer system and professional setup was still subjected to hacking and email hacking as a result of the targeted sources remotely accessing the computer system and internet server, and had obtained the knowledge of the targeted victim purchasing the new computer by the use of the illegal surveillance of the Privacy of her own home - Government and Police Targeting of an Individual - Government and Police Illegal Technology

continued to support the targeted victim by applying Multiple layered Security Systems to her newly purchased computer system and provided Digital Monitoring of the computer system for Security purposes and alerted her of the suspicious activity occurring in the newly created accounts and provided continual advice and information to protect her computer system.
The Fraudulent and Malicious activity was finally Confirmed following 7 years of reporting the illegal activity.

The use of Remote access to servers and computer systems as a result of Government and Police targeting of an individual and involving Organised Targeted Crime was confirmed by Telstra Head Office in 2021 following multiple reports of continuous Fraudulent and Malicious activity in all servers of Telecommunication Systems between 2015 - 2021, and had continued following relocation of the targeted victim to a new region of SA and following change of all details, including newly purchased mobile phones , multiple change of phone numbers, personal details to business account details, Multiple Security Systems applied and applied Restricted Access to the Telstra account of the targeted victim, but the illegal activity of Fraudulent and Malicious activity had continued despite the Security measures and precautions applied. The targeted victim was informed by Telstra Head Office that the only way to stop the targeted activity in her Telecommunication Systems was to drop of the grid all together.

The targeted victim refused to be bullied by the targeted organised crime and decided to stand her ground instead and would not be denied modern services because of the persistence of the targeted activity, and instead applied a watch dog reporting application on her mobile phone that reported suspicious activity and warned her of spam calls or contacts that would automatically report the phone number to authorities that had contacted her.

The targeted victim was supported by Telstra Store, Kadina who continuously reported the illegal activity of Fraudulent and malicious activity to Telstra Head Office, applied the Restricted Access to her Telstra account and thoroughly checked new phone numbers for previous use as to not provide a phone number that had already been in circulation and would not be subjected to previous use.

The Fraudulent and Malicious activity was finally Confirmed following 7 years of reporting the illegal activity.

RE: COMPLAINT REFERENCE NUMBER

Thanks for the chance to talk about your Optus mobile service with account number

I refer to your recent communication with Optus, wherein you advised that you had been the victim of fraudulent activity. You have advised that you contacted Optus approx. 2-3 months ago to make a payment arrangement and spoke with a staff member you feel was not actually an Optus representative and this time you state the following issues:

- received blocked and altered text messages and there is evidence of phone calls that the consumer states she never made.

- noticed excess usage on her mobile, and saw her bills jump dramatically after this time. You have another mobile (Optus) and that some photos from August were accidentally deleted.

-Please note the mobile number you have provided is not an Optus number and is not listed on Optus systems.

To enable Optus to investigate this matter, it would be appreciated if you would provide a Statutory Declaration which sets out the details of your dispute. To assist you, we have enclosed a Statutory Declaration for you to complete and return.

It is important that the Statutory Declaration contains as much detail as possible, including:

- Your personal details; Name, DOB, residential address, occupation, employer and your daytime contact phone number/s
- Full explanation of what (including account reference / number) you are disputing and the reason you are disputing ownership of this account
- Confirmation as to whether you currently or previously have held an Optus service - and the relevant service or account details.
- Confirmation as to whether or not any other person is / was authorised to act on your behalf
- Any other relevant information that may assist Optus to investigate and resolve this dispute.

Dear

Thank you for your recent enquiry, and we are sorry to hear how this is affecting you.

eSafety and Adult Cyber Abuse

The eSafety Commissioner's (eSafety's) primary role in dealing with cyberbullying complaints is to assist with the rapid removal of cyberbullying material targeted at Australian children, on social media services.

Please be aware that eSafety, therefore, has no legislative power to investigate adult cyber abuse complaints, formally. However, we do work to guide people where we can and provide advice on what they can do themselves.

In the most serious cases, we will use our existing relationships and escalation pathways with social media services to effect take-down of harmful material that is considered to be serious cyber abuse in nature or, where required, we will refer the matter to law enforcement.

Digital surveillance

Your situation sounds like it may be digital surveillance, which is not an area we generally handle or have experience in. You may wish to approach your email (and any other relevant) service provider about the situation.

You may also wish engage an IT consultant to assist you in this matter or a cyber digital forensic expert to assist you further and we'd encourage you to consider doing this in the meantime.

Reporting to police

If you wish to pursue this or to make a formal report to police, the following steps may help you prepare:

- Prepare a timeline of what has taken place
- Place any screenshots you have in a word document (provide a summary below each image explaining what the screenshot relates to)
- Provide copies of any URL's you may have (you can obtain the URL by copying and pasting the URL address from your browser address bar)
- If you believe you know who the person is that is targeting you online, provide as much detail about the person.

I have attached our Adult Cyber Abuse Resource sheet which contains useful eSafety and support links. You may want to reach out to support services to help you in this difficult time.

We have now finalised your matter for now and hope the above information assists you.

Regards,

Cyber Abuse Team

Founded in 2021 by a targeted victim of Organised Targeted Crime, involving Government and Police figures who targeted her for 27 years as a Qualified Business manager and Business Developer and then went on to become a published author with a Publishing House in London, UK of a series of published novels.

The published novels are a dramatic and fictionalised look at one woman's experienced hell and journey she suffered while in the grips of the Government targeting and entrapped in the conspiracy of an Organised Crime Syndicate. This was her story. This was her Reality.
