Good morning Jeffrey,

The aircraft is certified to carry 18 passengers; therefore there are 18 16G seats in the cabin

10 16G seats in the forward seating area and 8 16G seats in the aft seating area. These are the seats that can be used for take-off and landings.

The other seats are 8G, they can be used during flight to allow freedom of movement to the passengers.

In addition there are 2 16G seats in the crew rest area.
