1

It features 1080p vid=o, 130º camera angle, motion detection & alerts, two-way audio (t=lk/listen to the dock thru the camera), usable night vision, iOS & web=apps, an easy to mount, flexible stand and 10 days of video archive on the=r cloud service.

Assuming the dock has solid wifi=— like it's supposed to now — I would set it up he=e and we'd ship it down to the island to have Jermaine (or whoever= plug it into power and mount it somewhere it could see the dock (maybe we=get two, one for each side of the dock?).

It�=80�s $200 (each), plus $100/year for their cloud storage (additional cam=ra adds $50/year subscription for storage).

Here=E2�s the product page:
https://nest.com/camera/meet-nest-cam/ <https://nest.com/camera/m=et-nest-cam/> =/div>

Here's the CNET review:
http://www.cn=t.com/products/nest-cam/

<=div>
The second choice would be Foscam FI9826P. It'= adds 300º pan, tilt and optical zoom functionality to the Nest Cam a= well as on-device SD-crd storage of clips, but has a narrower field of vi=w (Foscam maxes out at 70º, Nest goes to 130º) and it's =etup / apps are notoriously difficult to work with.

CNET:
http://www.cnet.com/pro=ucts/foscam-plug-and-play-wireless-ip-camera-fi9826p/
<http://www.cnet.com/products/foscam-plug-and-=lay-wireless-ip-camera-fi9826p/>

</=iv>
$180 on Amazon:
http:=/www.amazon.com/Foscam-FI9826PW-Megapixel-Optical-Wireless/dp/B00ITPYPC2/<=a>
<http://www.amazon.com/Foscam-=I9826PW-Megapixel-Optical-Wireless/dp/B00ITPYPC2/>

Probably will need this $11 mounting hardware,=too:
