Jeffrey

I spoke to Gary again this evening,.

IF you elect to proceed with demo / showing flight to Toluca Mexico, j=st outside of Mexico City, elevation is 8466' (13,780 foot runway).

I attached a brief operating expense for your review. (Fuel price in T=luca Mexico is \$2.61 per gallon currently).

Gary indicates the following

Seller inserts into Darren's escrow account \$1.4M which \$60,065.00=is non refundable if Boeing is rejected by buyer to cover PBI to Toluca Me=ico flight.

-Purchase price \$3.5M

-immediate Cash at closing \$1.4M

-finance remaining balance at 36 months with 8% APR (or whatever =igure you decide),

*** Gary informs he completed a deal with another Mexican company=that purchased a Falcon, put 40% down, John Deer was seller and fin=nced buyer at 7% APR, his words, which we can agree may not be true.<=div>

-either lease the aircraft to buyer and we crew the plane for the firs= year, Dave and Bill Hammond as pilots? Seller pays pilots and all expense=.

-Judge how prompt payment schedule is met.

-maintaining our FAR125 Certificate during its operations,

If you elect to purchase a BBJ, we can insert the BBJ on JEJE, Inc FAR=25 certificate if needed.
