RE: BBJ 30330 - Lightning Strike Data & Photographs

Hi Larry,

We will convey your offer of \$25M for surplus. Please advise your projected closing date. Does your quick close include inspection or is this "as is where is" no pre-buy?

As I indicated, we do not believe an offer at \$25m will be viewed as acceptable but I will advise.

Best regards,

Victoria

Victoria, photos received well.<=span>

we know of the Asian buyer Mr. Li Jung= and he is not a real buyer. Can you transmit the \$25M offer, &nb=p;with a quick close to your BBJ seller? you can tell the owner that we will put \$5 million in escrow immediately, if he wants a q=ick close.

thank you,

Larry

Good morning Larry,

Find attached the log entries and two pho=ographs of the wing tip lightning strike that occurred in September.

It was only the wing tip that was hit. Th=s is being replaced by Jet Aviation Basel now. I will follow up with copy o= the Jet Aviation Log entry pertaining to this visit.

Previously there was another lightning st=ike to the stabilizer (approximately two years ago). This was addressed and=there was a 12 year inspection conducted on the aircraft since then as well.

Let me know if you need anything further o= this.

Best regards,

Victoria
