## Boeing BBJ serial number 30884

Dear Jeffrey,

Below is a summary budget based upon the limited information we have been provided. Specifically, I have not seen the aircraft and you and I have not discussed the many details that presumably you will desire.

Whenever you deem the time as right, I strongly suggest that you and I walk through the aircraft and discuss what you will keep, what you want modified and what you want new. These answers will provide us with the information we will require to formalize an accurate proposal.

Below are budgetary costs that I believe you will find useful when comparing various aircraft. As always, each aircraft is unique in configuration and amenities, so these costs should be used as a "guideline" for estimating purposes.

<u>"Budgetary Costs"</u>	<u>Modification Work Scope Summary</u>
\$ 1,100,000 - \$ 1,300,000	All soft goods including fire blocking and 16g certification compliance
\$ 235,000 - \$ 275,000	Metal Plating (does not include cabin management switches)
\$ 1,500,000 - \$ 1,900,000	Floor plan modifications, engineering and certification

If you have any questions regarding this information, please do not hesitate to contact me.

Warm Regards,

Eric
