English fluent
German good knowledge

Driving License: B (Germany)

Hobbies: Sport, music, dancing, travelling, reading, meeting
people of different cultures

Create a Business – Entrepreneurial Spirit

Whilst doing my first education I was seeking for a good business idea to implement. On my 18th birthday I incorporated my own firm.

We were consulting women in the area of cosmetology and inspiring them to be beautiful and shiny - no matter how old they were 😊

The project lasted 2 years and gave me a good experience in working on my own and understanding how important it is to build a good team. The fact that the business was finally closed with a small minus did not stop me from seeing it as a good idea. Never give up!

After seeing beautiful collages of my friend, we decided to make a collection of T-shirts and sell them through the social networks Facebook and Vkontakte. As no major initial investments were found, the first small test-collection was sold to our closest friends with a small margin on it.

Russia's Next Top Model (RNTM)

Since I was a child one of my passions was modeling.

When I had free time during my studies, I was attending some local fashion shows and photo shootings.

The biggest success came after participating in 2011 in the national casting show RNTM and winning the 3rd place (shootings were in Moscow & London).

It is not that easy in a country of very beautiful women 😊

Result: Invitation to work in TV + contract with the best model agency in Moscow.

And the bonus: Many-many young inspired fans from the whole of Russia.

some are still

visiting me

here, in Switzerland!

In Zürich with adorable Olga Ponomareva who participated in Russia's Next Top Model ☺

Sport TV

After receiving a chance to work on TV in Moscow, I decided to dig into the world of sport. In this period I was studying “TV-Journalism” at MSU and working in parallel for the national sports TV-channel “Russia-2” as a sport reporter.

Young Ambassador of Russia for the Youth Olympic Games

Working on TV and writing my graduate work brought me to my next project and I am very, very proud of it indeed 😊: In 2014 I was elected as a Young Ambassador (YA) for the Youth Olympic Games (under 18) in Nanjing, China. After a successful collaboration with the International Olympic Committee another YA and I were invited to the next Youth Olympic Games 2016 - in Lillehammer, Norway - to lead our own booth “Building a better world through sport”.

Current Activity & Conclusion

Now I am working at UBS Switzerland AG (Paradeplatz 6, Zurich) in the area of Wealth Management, Russia-CIS, HNWI and studying to get a Wealth Management Diploma.

I am interested to take part in various commercial and non-commercial projects that can help to develop myself, build a good network and gain some learning experience.
