Got a call today from a lawyer that said they represented Ghislaine - Dara Savgine representing Laura Meneger and the lead attorney is Tony deVerginio, located in Denver (not sure spelling is correct). Apparently I was named in a civil matter endorsed by [REDACTED] Ugh – bitch...

Anyway, can you ask Ghislaine to call me? Is this her real representation?

What a shit show --- so annoying... Ghislaine should just come out of the closet and say she's gay – she's the 'B' in LGBTQ – I will totally get the community behind her. [REDACTED] was a consenting participant, and I was CLEARLY the adult in the room. If she ever felt uncomfortable she could have come to me and never did.... So, there isn't a case in my opinion.

Please make it go away... or, at least acknowledge that your old girlfriend is gay, your good friend is a con-artist, and you really did love me as much as I loved you.... *
