Good day boss

The ipad adapter to connect the ipad to the gym audio system has arrived. I can install it after i pick up the guest tomorrow..In addition, I have an new apple tv to install in the gym.

Radio shack did not have a HDMI extender in stock, this extender is to replace the non-functioning existing extender that extends the dvd player signal to the tv on the wall. I ordered a new one to replace it. (ETA 6/3/16 - 6/6/16)

Regards
Jruan
