Jeffrey,

What is your expectation for arm rest, lower to match wood ledge and firm/steady no wobble?
I think wood rail is to low for an arm rest, just my opinion for height. Otherwise your arm will not rest on armrest.

Larry

I may elect to see if plane perfect interior can address the arm rest. May need fresh approach, toy store is way to busy at this time to look at arm rest, a little narrow minded there at this time.

I really want to get the heli ip operation for youn but if you think I have a couple of weeks, then I'll get it right!

Thx

Larry
