dear Jeffrey

i was stunned and extremely happy to receive the extra money and appointment as an advisor to your Foundation

i talked for some time with Richard today and actually take the assignment seriously so anytime you want a quick summary of where i think the action is, which people, blah, blah, blah i will be ready; indeed in a few cases i may presume to initiate contact with your Board by suggesting a project or two; being simple theoreticians like myself, costs will tend to be modest !

by following your counsel, e.g. shrinking my Jamaican work to under 5 grand to get 39 more knees; money already in my Foundation; yours will go entirely toward the theoretical work you have urged upon me, which in turn i find valuable in trying to market myself for future employment; i now give people an updated version of the report i first prepared for you

here is wishing you all the best

wherever you are

bob
