danny / dave  
do the cisterns need to be installed to hold water before RO is put into use?  
if so where are we with that?  
please advise  
thank you

Good afternoon, Everyone,  
The water maker is assembled and in the testing period. It will be shipping out  
on Thursday and arriving by plane directly to us, so we should be able to  
pick it up on Monday. Once I have it in our possession, I will notify you all  
to schedule installation.

Kind regards,

David Van Drieson
