Subject: Fwd: Some other Possible Invitees for NEXT conference
From: Cecile de Jongh <██████████████████>
Sent: Tuesday, November 15, 2011 9:37:18 PM
To: J E <jeevacation@gmail.com>

See below other persons Marvin wants to invite.

With warm regards,
Cecile

>   Dear Jeffrey,
>   I know it is late, but here are 10 extremely smart and interesting people.
>   (Probably, only 2 or 3 could come on short notice.) Can we quickly
>   discuss them briefly?
>   I'll be at ██████████ (cell) or ██████████ (home).

Marvin

3 Science-Fiction Futurists ═══════════════

>   **Gregory Benford,,**████████████████████████████. *"Timescape"*

>   **Vernor Vinge**, San Diego, CA 92182-7720 *"True Names"*

>   **Bonnie MacBird** First author of *"TRON"* movie) (wife of Alan Kay)

2 Computer Pioneers ═══════════════

>   **Alan Kay**, First personal computers at Xerox, Atari, and Apple

>   **Tom Knight**, (computer graphics hardware and genetics) Question: Is G.

Church OK with him?

3 AI Pioneers in "Commonsense Knowledge and Reasoning"
==================

Erik Mueller, ███████████ "Watson" project at IBM

Roger Schank, ████████ early CommonSense AI Theories

Douglas Lenat, Cycorp (Austin TX). First "commonsensical" AI systems.

2 Harvard Genetics Researchers ================

Erez Lieberman

Corina Tarnita

Here is a prodigious young MIT/Harvard Student and Note-taker:
==================

David Dalrymple ████████; cell ███████████.

And perhaps you know this very ingenious Inventor-Manager,

Michael Dubno █████████████████████ cell ███████████

(currently Head of research at Bank of America)
