I looked at the wall ,it can be lower now that it is not a diagonal. will direct it to happen at 12" high
will fix spiral end at 20 ENE,will have a pic sent of it formed prior to pour
steps, will double check ,if grout doesn't blend it in
cabana 4 , we are using the spoil from the palm excavation to blend the hill back
kitchen , have cabinet ,
wind door material should be at cab. shop 11/15 , 12/1 to jobsite
Saint tile bid \$14.50 per ft one week of 5 people to prep pool and two weeks to tile and groute.will work on
strategy
brice to respond to balance of issues

Subject:

the wall on the top of the librabry road, still looks too high, , the angle needs to be done at the
end of the sprial lookds more like20 degrees east of north.. not forty five. , the steps in the
courtyard should be replaced on the entire step if it looks as obvious from the photo , that the far
one only was replaced on the bottom step. , the grading behind cabana four does not look as if
has been as redone as the eastern most part of the hill. , , the kitchen in the flagpole pool , refrig
is still the same , no finsih cabinet, . no courtyard lights., i want a plan to retile the main pool,
when will the big wind doors be ready? , there has been no grading in the area between the master
and the library,, the western planter is still not touched,
