OK.

I will refer to some guy in foundation to provide some follow up (that material was received) but that will be it.

That guy needs some attitude adjustment.

Importance: High

Dear Boris,

It was a pleasure meeting you on Saturday. Kindly find enclosed two confidential documents on our Coferon and colon cancer early detection work.

As mentioned, the DNA diagnostic chip to detect M.tb drug resistance mutations was developed by my collaborator Steve Soper, who just moved to UNC.

If you would like, I can forward your contact information to him, and the two of you can communicate directly (he is currently overseas).

Hope this helps, all the best,

Francis

Lesley,

Just wanted to thank you for arranging the meetings on Saturday. I have attached additional info on the two projects that Francis presented to JE and Henry. You can forward these to Henry directly if he has further interest.

Thank you,

Anthony
