Your prescriptions will be ready by 4:15 today. I will send [REDACTED]

Clyde's pharmacy called to let us know one of the prescriptions is not covered by insurance. I told her to fill it and we will pay for it. It's \$240.

There are some prescriptions with limits on how many insurance will pay for. She is filling only as much as insurance will pay for. Do you prefer she fill them to Dr. Merrell's request and pay for the difference? (she said the prescriptions will be kept on file and if you want the balance at another time, they can fill it then)
