Good evening boss

I am reaching out to the tech that install our system, with your request this seems a bit more advance than the basic manual. I did save to old setting so I can put it back to the way it was. Steve should be able to guide me in separating the regular lines and your personal lines so I can mute just the regular lines.

Regards
Jruan

Subject: Lsj pbx assistance

Good evening Steve

The boss wants for mute or turn off the ringer on line 1 but not jee lines. I attempted it on my own but my effort was unsuccessful. (I shut off the ringer and it turn off all the ringers including the jee lines)I will be resetting it back to the way it was originally set by you tomorrow. Can you send me instructions on how to accomplish the boss request. I don't want to do the "trial and error method" and do something that I can't undo.

Side note:

Is there a class or do you all do training on this pbx that I can attend. If so can you send me the details. I would like more training beyond the basics.

Regards
Jruan

Thanks in advance

Regards
Jruan
