Jeffrey I am so wounded.

I must have eaten something bad and I think it was strawberries. While I was eating them they starting stinging the roof of my mouth. The next morning I felt like I had been drinking something too hot. the pain started getting worse until it felt like someone had taken a knife and scraped the roof of my mouth. the skin was all swollen. even water was too painful to drink and I couldn't close my mouth. I went to the city md yesterday and they gave me a mouthwash that numbs my entire mouth.'

The pain has been so bad!

Please don't eat strawberries!!
