i do not want to go back and forth with you as i want for us to work together in a positive fashion however..

when i asked you about papers on Friday you said it was no big deal as i gave it to Leon. assumption from that was that it was resolved however not until i asked if you had verification that it went out was when i discovered you did not know status but assumed it was done. unfortunately or fortunately i have been trained to not make assumptions but to verify everything..

looking forward to hopefully spending more time together next week

Confused by your note....your facts are accurate except I don't understand the "I don't appreciate being told something that's not true". Who told you something that's not true? Me? Other?

between emails to joslin and yourself i have asked for this to be completed 5 times since February 2015  
when we spoke on friday you said it was no big deal as you gave it to Leon. i then asked if you had confirmation that it went out and you said you did not know..  
i don't mind helping you but do not appreciate being told something that is not true.  
as i am sure you are aware mr kraus sent jee this email and now i am being asked why it takes 2 months for us all to achieve a simple modification.

thank you

hi.. just touching base again on both these issues as I leave for europe and south  
america tomorrow for several weeks.

best

LMK
