[REDACTED] says the Smoking Gun just called her cell phone and was asking why/if she knew she was in your address book under 'massage' .. [REDACTED] laughed and said she doesn't know why..but she is wondering if this is true and if she is in there any other way like with 'stars' by her name or anything...she just wants to be prepared for any more calls that come in. She is concerned the political press will get a hold of this as well...
