BENEFITS OF INSTANTLY AGELESS™

If you want beautiful, flawless skin without undergoing Botox, then you absolutely *must* add *Instantly Ageless* by Jeunesse to your skin care regimen. In addition to providing anti-wrinkle benefits, it gives you these perks, as well:

- Minimizes appearance of fine lines
- Gets rid of dark circles and puffiness under the eyes
- Reduces appearance of pores
- Works in two minutes, with no needles
- Revives skin for a more youthful look
- Evens the texture of skin
- Comes in small, discreet vials so you can use it anytime, anywhere
- Works upon application, so you can use it as frequently or as occasionally as you'd like
- Diminishes visible signs of aging
- Gives new life to your skin.

Most of us don't have the time or resources to undergo Botox treatments, but we all want gorgeous, youthful skin. Other products significantly cut into your beauty budget, but only offer some of the benefits of *Instantly Ageless* and require extended use before you even begin to see results. Don't waste your time and money on those products. See results in as little as two minutes with *Instantly Ageless eye cream*.

Don't let your skin tell your age. After all, you're only as old as you feel, right? For beautiful skin that defies the laws of biology, give *Instantly Ageless* a try today!

HOW TO USE INSTANTLY AGELESS™

Lightly pat a very thin layer to targeted areas; leave damp on skin and remain expressionless for 2–3 minutes while product dries to achieve dramatic results. One vial typically lasts 2–3 days depending on individual use.

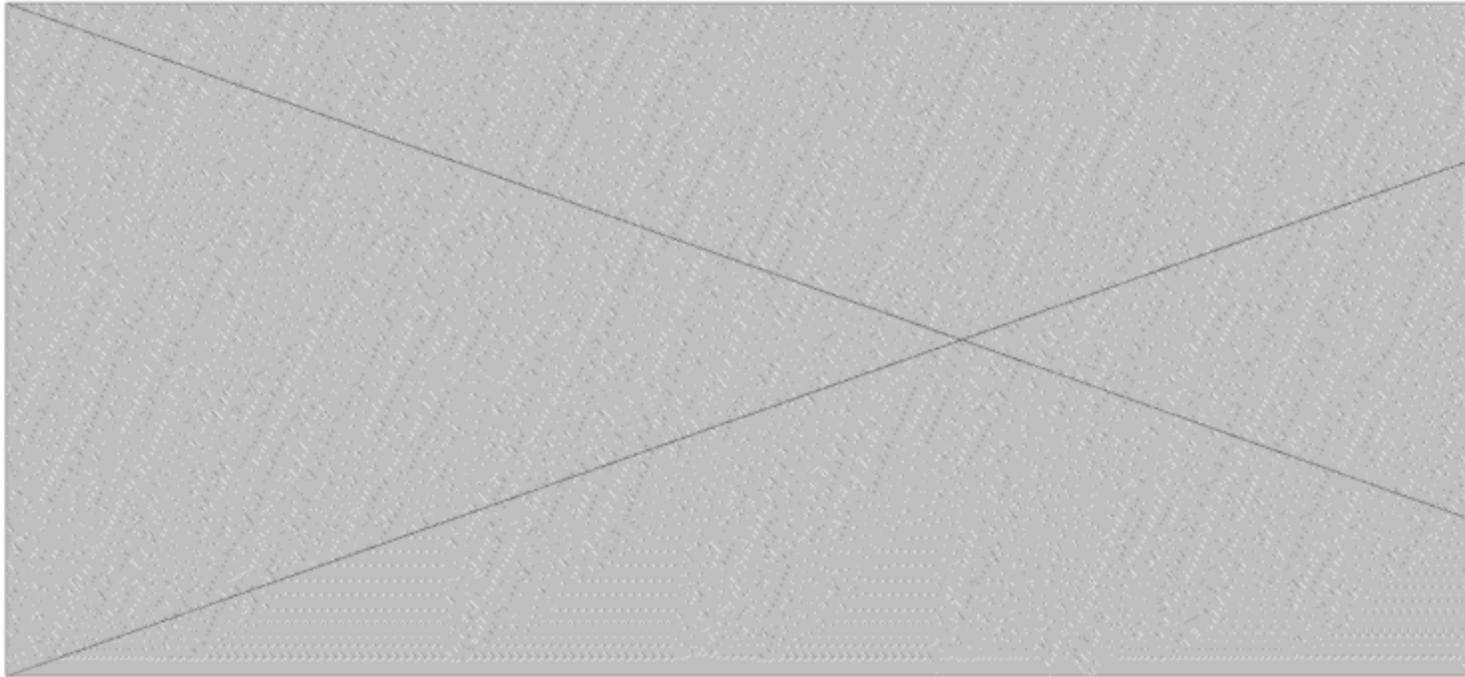

Use as directed and avoid contact with eyes. If product gets into eyes, flush with water. Discontinue use if redness or irritation occurs. Consult with your physician if you are allergic to cosmetics.

Results are not permanent.

Since the beginning of time, people have sought ways to look younger and more beautiful. Product after product has been developed to fight wrinkles, dark under-eye circles, fine lines, and puffiness under the eyes. While some of these products work well only after repeated daily use for an extended period of time, *Instantly Ageless* by Jeunesse has provided a breakthrough in anti-wrinkle creams by giving you visible results in as little as two minutes.

HOW INSTANTLY AGELESSWORKS

When applied, *Instantly Ageless* targets areas of your skin that have lost elasticity. This anti-wrinkle microcream stands apart from others in its field by using an ingredient called argireline, which is a peptide that works like Botox – without the painful needles. To get the best results from your *Instantly Ageless* anti-wrinkle cream, apply a very thin layer to desired areas, leave the cream damp, and remain motionless for two to three minutes. It's important to follow these instructions, since the cream works as it dries. Additionally, use the anti-wrinkle cream every day, once a week, or only when you have a special event. Results aren't based on repeated daily use.
