Jeffrey

Estimated costs from Westward Landscape Con for Log Cabin Grading and Planter Beds at MH are as follows.

Log Cabin Grading and Rock Retaining Wall

Estimated Cost: **\$48,500 plus Taxes**

4 men, 12 days, plus equipment rental

Please note Westwind indicated they would prefer to do the work on a TM basis, plus equipment rental.

Zorro would supply Rocks(approx 118) and Dirt (800 cy)

2 Planter Beds Main House

Estimated cost: **\$59,000 plus taxes**

Multiple crews, 21 days.

Includes, red brick pavers, irrigation, deer and rabbit proof plant material, no trees.

Zorro would do rough grading

After receiving the above, I have arranged for JJ to review both projects and provide estimates, I truly believe we can work something out with JJ, thats is more cost effective
Plan would be to have log cabin and 2 of the planter beds completed by your August visit.
Will forward estimated cost for JJ/Zorro option to you by Wednesday next week.

regards

Brice Gordon
