I would estimate increasing the size of the image + 20 % but please use your experience & judgment to best determine what image size for the Eagle would appear balanced on the matt and forward revised proof

Hi Sarah,
Thank you for clarifying the correct size of both Black
& Brown matts as 16" x 24"

From the images received, the size of the Eagle appears to be (slightly) small
in proportion to the overall size of the matt

Best regards
