If you can convince Elon musk to fund (huge credibility) and help  
me attenuate Greg I think we can do it.

16 months could go to 37 african countries. The rest would be easier over time.  
Will need to secure "landing rights" but could also package  
sovereign lending pkg for gateway (base station) build out in each.  
Might be able to also get a deal through the AU.

I need a real title or the leaders won't listen to me but you are right ceo is gross.  
President might be good. Would need a reasonable ceo who  
wouldn't get in the way.

When can we start?
