Robert Mugabe
Speech about Racism
Racism facts:

- 1-Racism will not end as long as white cars are using black tires
- 2-Racism will not end as long as we continue to wash white clothes first and other colours afterwards.
- 3-Racism will not end as long as people continue to wear white clothes for happy occasions and black clothes for sad ones
- 4-Racism will never end as long as people still consider black means bad luck and white means peace
- 5-Racism will never end as long as people who don't pay their bills are put in the black list and not the white list
- 6-Racism will never end as long as snooker rules state you have to sink the black ball and the white ball has to stay on the table to win.

But all this doesn't matter to me as long as I am still using white toilet paper to wipe my black Ass !
