Greetings Rebel and Rich,  
Fred from Offshore Marine says they will not pick up the Sportis until Thursday or Friday of this week.

I told Fred that we only have free storage until today. He says he thinks that has been worked out.

I called Clarence of Sea Star, who confirmed that CMA cargo does have 10 days free storage - so up to 1/3/2014 - I asked Clarence to call me if the boat is not out of his yard by Friday morning.

I asked Fred if he could pick it up earlier - he said he is short staffed. I asked him when the boat will be ready for JE, he said he did not know as he has not seen the boat and needs to look at it first.

So, at this point - 12/30/13, boat in storage at Sea Star, Offshore Marine to pick up by 1/3/2014, completion of wiring and engine installation unknown until Fred at Offshore Marine reviews the boat.

Unlike what Carlos told us, Fred did not indicate that the person who is actually wiring and installing the engines is on leave until 1/7/2014 - he only said he is "short-staffed".

Rich, for your record, I got Harold on the phone first, and he, off the bat, told me that he stays out of this, talk to Fred.

I hope this turns out well, DW
