Easy stuff.

We start with what is the goal of the training class?
Basic boat handling, advanced boat handling, heavy weather, Low visibility and nighttime operations, tactical maneuvering, etc or all of the above?

How many students are in the class?

What is the experience level of the students?

Where is the training taking place?

How many days do we have to execute the training?

We need classroom time and obviously underway time.

When would you like the training to occur?

No problem. We tailor training programs all the time. Matter of fact we have done multiple classes for the Vulcan security team. Most of them were former Seals, Delta Force and Rangers. So they were very technically savvy but little boat operations experience. We taught them on basically all the Tenders on the big boat. Ribs, Ski Boats, jet skis, etc.

What model Ribtec are you working with?

Hey Jeffrey,

Happy New Years!

Absolutely we do. We go from basic boat handling skills to advanced tactical Boat operations on pretty much any types of boats.

What type of boat are you using?
