Where is your plane? Want to rent it?

I want to take the kids to finland to see santa clause near the north pole. Getting picked up with dogsleds at the plane, then to the reindeer station where we transfer to reindeer then up to his office where they get 15 minutes with him and then back for lunch with the elves, on the plane and back home.

I got it all set up with private time with santa, etc. at santa's village up in Northern Finland. They are opening up early for us so we have no one else...
