Those are the pots ?

No carving? Right?

Palm vases from Bali Indonesia

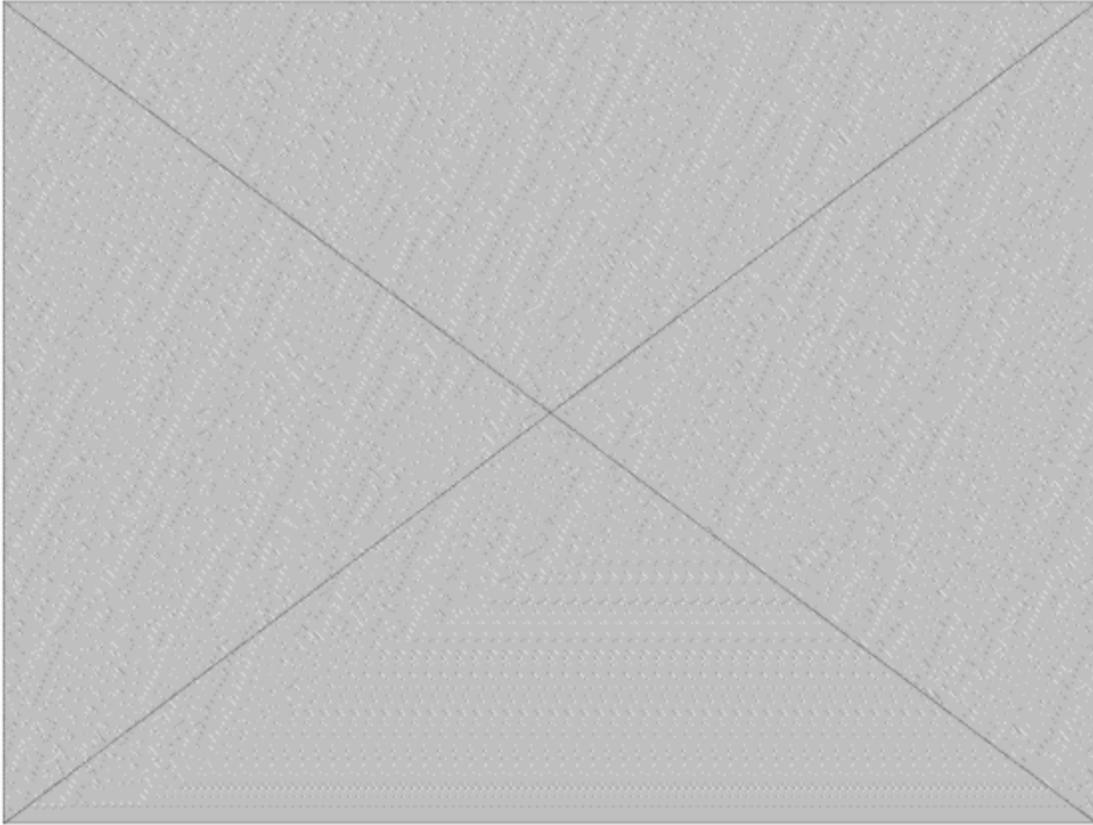

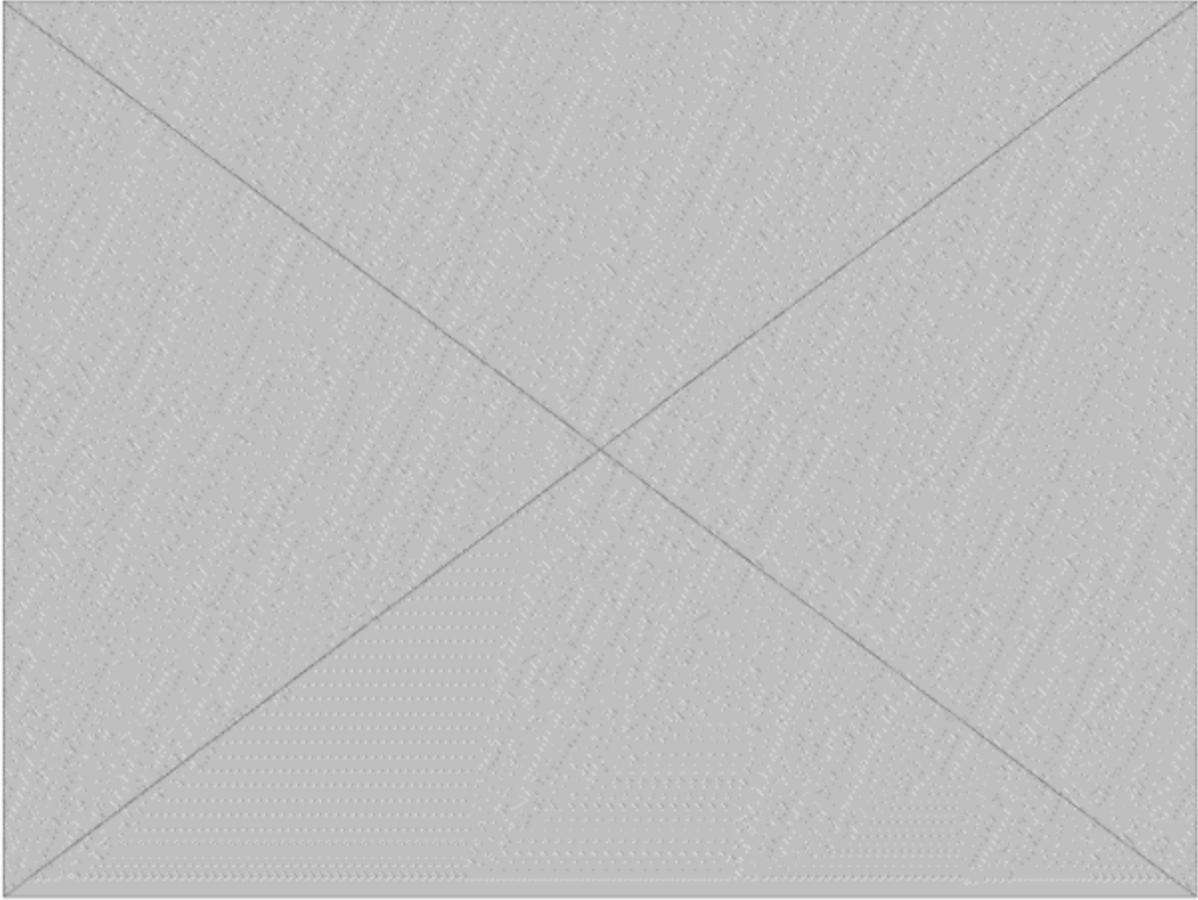

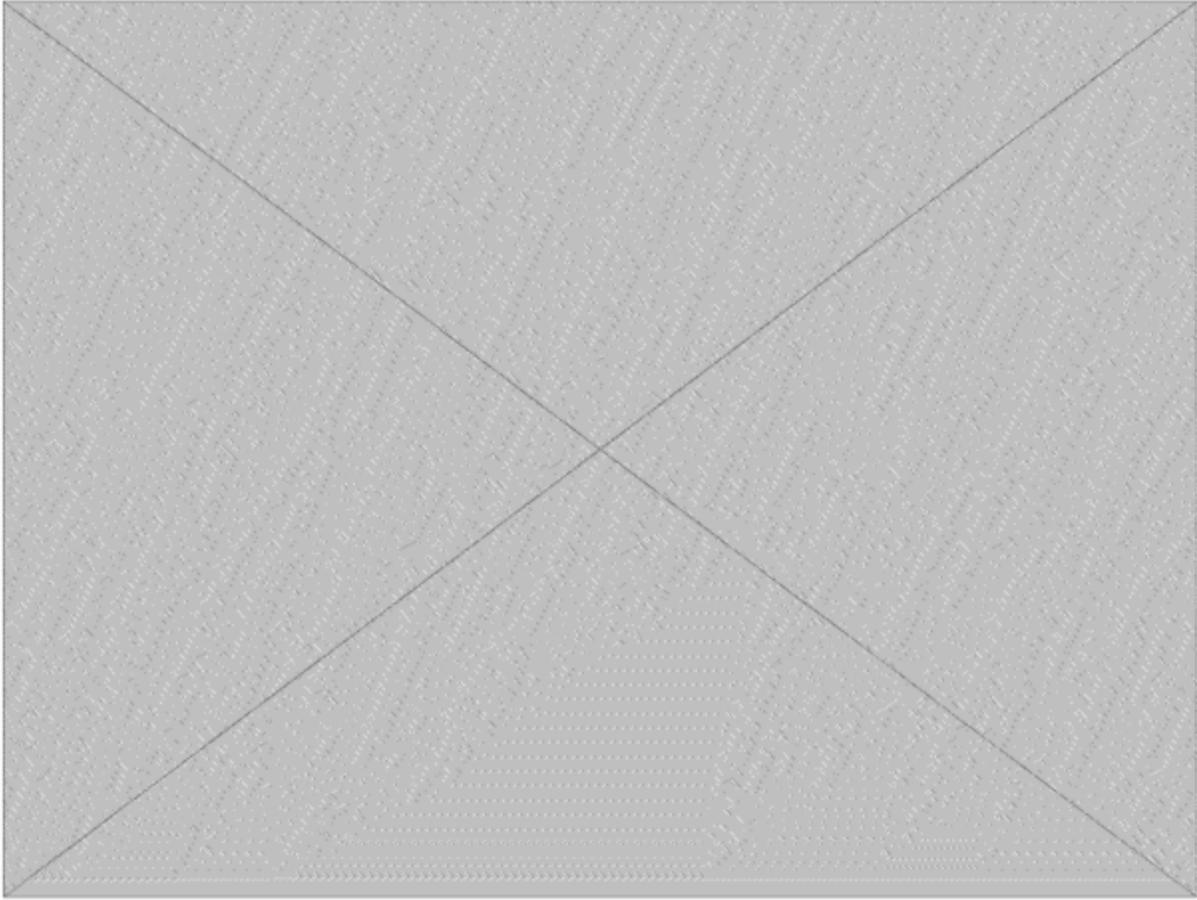

Photo No 1

The large palm pots in production stage. All palm tree vases palm tree bowls shipped in finished/stained condition. [Click here to view these giant palm tree bowls in stained](#)

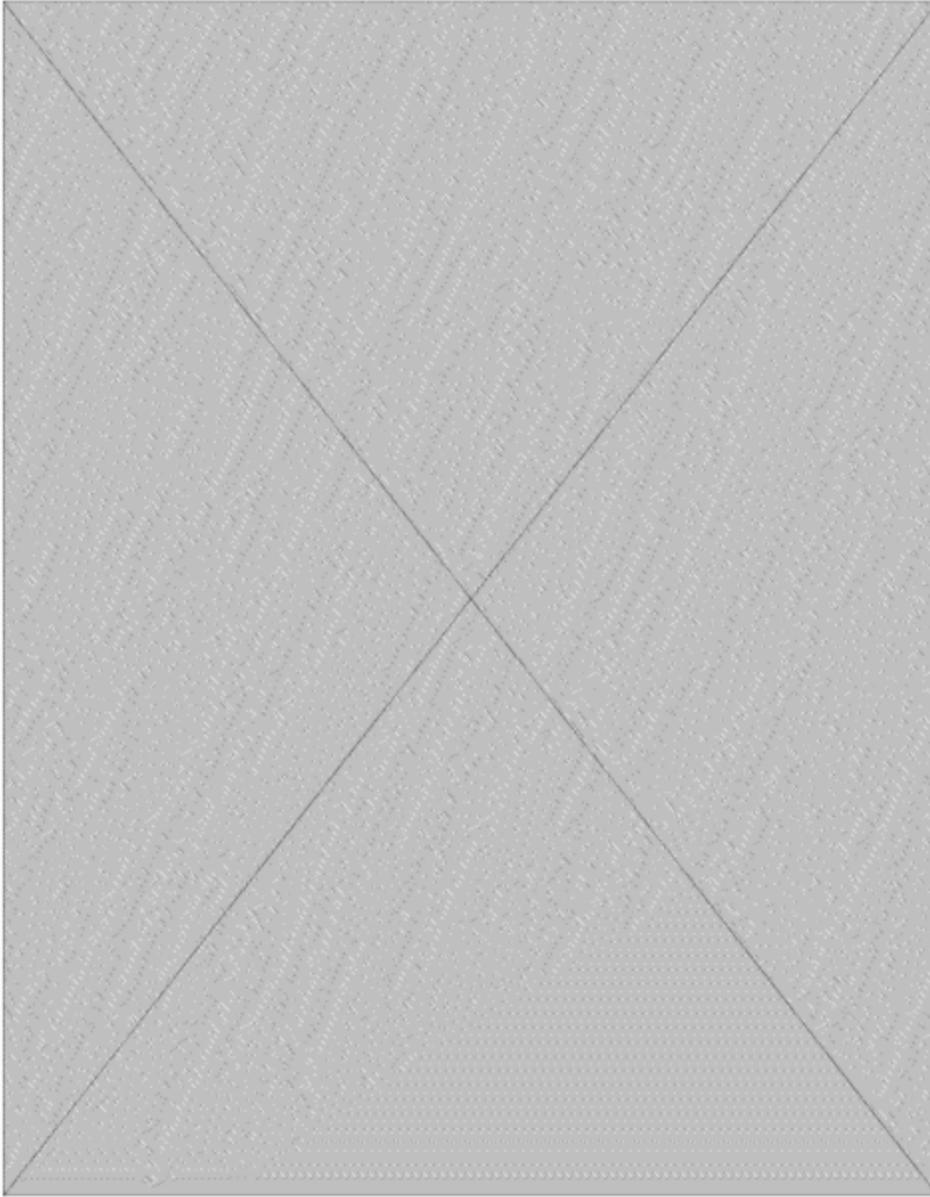

**Our factory workers checking and sanding the palm tree trunk vase. Notice the beautiful shape of the trunk. Also the wood grains. It's beautiful from the beginning to the end. The making of the palm tree trunk vase or palm pots use mostly by hand. We use machine only when necessary. Thank you for buying our palm pots. It helps us creating jobs for our village people.**

**The palm tree trunk pots made of tree trunk which is hollowed out and sanded.  
The photo below show you our worker hollowing the palm tree trunk**

**Spraying the palm tree wood pot. After sanding the palm wood, we spray the palm tree trunk to enhance its beauty. This is done more than three times (sanding and spraying)**

**We produce the palm tree pots in three sizes: 200cm, 150cm and 100cm high or equal to 80inch, 60inch and 40inch. Custome size welcome. The width of the pots vary. It's usually 50 to 70cm in diameter (20 to 28inch) at the bottom of the pots.**
