Hey Bossman,

R/O Plant:

Mr. Patrick said that he can come over to LSJ tomorrow and try to manually jump start the high pressure pump for about 4hrs. which would produce about 20,000 gallons of water until the part arrives. Worst case scenario... we would have to call water trucks over to LSJ but if all goes well with Mr. Patrick we won't need to.

Tomorrow work schedule:

Fill in service stone road.
Start stone work in front of Flagpole pool.
Finish fixing Tiki stone wall.
Beach Hut wires fixed.
Pokey to make cover for Beach hut wires.
Blue Beach to be completed 10am tomorrow morning.
Housekeeping to organize all storage rooms.
Landscapers to remove & replace all dead plants.
Roads & Walls to be repaired.

Ann R.
