Greetings Sir,

Sky Dive Virgin Islands operates on STT Monday to Friday, and on STX Saturday and Sunday.

It is a tandem skydive - each professional instructor has at least 10,000 jumps

You meet at the Jet Center for a brief class.

Their plane is a Cessna 402 - it takes 20 minutes to reach 10,000 feet and fly to the Bovoni Race track (here on the East End)

At 10,000 feet you jump out of the plane with your instructor - free fall for about 1 minute - at 5,000 feet you open the canopy and float down to the ground - about 6 to 8 minutes

The maximum number for a "group" jump is 2 guests

The guest jumper must be at least 18 years old and weigh no more than 235 pounds.

They need 48 hours notice for a appointment

The cost is \$289 per person, plus \$60 for the still photo shots and video

The whole adventure is about 90 minutes

Respectfully,

Daphne
