Subject: Zorro Ranch Quote

Good day Sir,

Here is your Quote for Zorro Ranch. It Includes the main link which comes from the Crest to the main house presently. I have recommended moving the entry point to Ranch Central for Future proof. You have fiber along the Highway and in the future you may be able to use it, it is best to have the infrastructure at Ranch Central to tie it into. The link that I am proposing has the capability to grow as you grow along with all of my Wifi Equipment. Software upgrades and new license keys for a fraction of the cost of new equipment and no new installation charges. You will presently be using 25 megs and the link can go up to 150 megs. I hope you find everything is to your approval and if you have any questions please do not hesitate to contact me. Once again it was my pleasure to provide you with a Robust Solution for your projects and I know you will be very happy with my work if chosen.

Regards,

Terrence Rabsatt
