Greetings Sir,

My responses to Roy's questions this morning are written in red below. I presumed that Roy forwarded you the information immediately, my apologies.

Respectfully,

Daphne

Daphne,

JE just stopped me with a few request. Please find below:

- 1) Replace busted washing machine. (tired of chasing parts) - Please forward the Make/Model
- 2) Order 40 more coconut palms. Chris to tag. Wants to plant trees at top of hill before road work. ASAP - Chris will be travelling to PR on Monday, September 16 to tag - Ingrid has been contacted
- 3) Where is Dump Truck, polaris, & hydroseeder? Dump truck is at the DMV, once registered will be driven to Buck's house overnight - Buck will drive it to the barge in the morning. Danny is coordinating. The polaris and hydroseeder are on STT - will be picked up tomorrow - they arrived yesterday and were cleared - Danny and Boscoe are coordinating.
- 4) Need additional gravel at main entry. Hump onto concrete is too high. (lost much of it in rains) - Danny should coordinate the gravel - he would know the number of

loads, size, etc.

5) Replace bed in Sam's with Cabana 1, due to bloody sheets discovered while Ron was in there. Said ASAP on this one too. Do we know when bed for Cabana 1 is due? - The mattress and box spring for Cabana 1 are on STT waiting to be picked up - they arrived yesterday and were cleared - Danny and Boscoe are coordinating pick up

Also can you give me Anna's email. He would like me to start copying her as well. - [REDACTED] - please note that Anna is qu not gu like Carlos, DW

Thank You
