All Best buys sold out

Apple 5th has none, says we can check again on Monday Apple Soho has 32G (full is 64G) for AT&T in silver (she told me when we walked in central park that her first choice would be beige/gold). We need to find out if she is on AT &T When I try to order online I need to insert info about her contract and social security number.

So...shall I try contact her assistant regarding her carrier?

Should we wait until Monday to see whether 5th Avenue and Soho gets any full size ones 64G in gold? I feel like it may be unlikely.
