just spoke Luis from tile vendor LMT  
they recommend shipping tile (Dominican Republic to STT) in full crates which are usually 250-300 square feet to limit damages - they will be able to ship tile by thursday of next week  
cost is 2.25 per sq foot plus delivery charge of \$300

need guidance on the following

- a) exact amount of tile needed to finish pool / should we keep extra tiles in inventory / any other areas we need to tile
- b) shipping method - if we ship LCL (less than container load) they cannot guarantee delivery date (say it can be 2-3 weeks) - cost approximately \$1100
- c) full container approx cost \$3000 - tile will arrive in 5 days

Please advise
