You should have someone print you various materials in links below.
It has a lot of interesting info/comments. You probably already know most of it but just in case...

Subject: Dialog Breakout 101: Foreign policy implications for a computational currency like bitcoin

Dear Dialogers,

I look forward to seeing you soon in Turkey. I will be moderating the bitcoin discussion entitled
"Foreign policy implications for a computational currency like bitcoin." I realize we all know
what bitcoin is at this point, but here is a primer and some background information and I hope
we can all put some thought into the topic before we arrive. I look forward to a great session
and seeing you all soon in Istanbul.
Sincerely,
Steve
