Mr. Epstein also the house is heated by a forced air furnace from the basement ducted to all floors ,its = Trane unit XR80 this is a heating only no air conditioning at all. =3B Trane does make combination forced air units with a cooling coil but a outside condenser is needed. That's why they are showing the property late in the day when it cools down ,terrace doors were wide open and windows on many floors. So the building has no ac .Richard. = =
