This is the only email address I had, so I thought you could pass it along?

Jeffrey,

=nbsp; Thanks for the great hospitality and observations. Your discussions on money were fascinating.

&=bsp; I checked with Jermaine. It looks like he has a good grip on things but you are just paying the normal/crazy rates for rural internet - \$2000/mo for 4mbps. I know some of telecom guys don't there and will see if we can get the quality and speed up.

Keep in touch when you come to the states, or see you in St. Barth's!

Greg
