Jeffrey

with recent changes to the medical benefits received by Cynthia and Carlos at the Ranch the following has occurred. Cynthia has opted to go onto her husband's insurance, no cost to Employer and Carlos has opted for single coverage. Total Cost of \$716.29.

Breakdown as follows

| | |
|-----------------------|----------|
| Employer contribution | \$500.00 |
| Employee cost | \$216.29 |
| Total cost | \$716.29 |

Would you consider reimbursing 100% of health insurance cost for Carlos, since Cynthia has opted to decline insurance and Brad will no longer be employed effective 10 March, 2013

for your consideration
